Our Boca Raton plan offers just the right amount of space on the main floor with overflow space on the upper level. The entry opens to the large family room with ceiling that vaults into the 2nd story and is adjacent to the kitchen, dining room, ½ bath and mudroom. At the back of the home is a large covered patio and the master bedroom and bath. The two stall garage has a unique storage space behind and the upper level has a bonus room which overlooks the main floor as well as two additional bedrooms and a bath bringing the square footage of the home to over 2,300.
