Our Key West plan offers just the right amount of space for those looking to downsize with everything needed on one level. As you enter the home, there is a spare bedroom and bath next to the office which could be used as an additional bedroom. The master bedroom is at the back of the home with a large master bath. Facing towards the spacious covered patio you will find the kitchen, dining room with trayed ceiling and family room with vaulted ceiling and fireplace. Adjacent to the 3 stall garage is the 1/2 bath and laundry. The home feels much bigger than its 1,860 square feet.
