The Naples plan features the flexibility of an upper level with the privacy of a master bedroom wing. The main floor has a large master bedroom and bath with two closets, an office and spare bedroom with bath as well as a family room with tall windows that look onto the covered patio. Next to the 3+ stall garage is the ½ bath and mudroom. The upper level adds a loft, bedroom and bathroom to make the home come in at just under 2,600 square feet.
